OTHER BUSINESS – The committee discussed the potential cost overruns on the Penny projects.

Mr. Gordge requested the committee's endorsement and support of the PDT's Cash Flow Plan.

Councilman Jackson stated the Penny Program could change when it goes in house because:

- PDT has 10-15 Engineers; the County has 3
- PDT has 19 Inspectors; the County has not hired any
- The County has 1/3 the staff; therefore, the amount of work getting done, will not be done.
- The costs factors in play now will not be in play then.

Part of the program is to take on a bond of approximately \$175M to continue to do work. Some think that we should not do that, but pay as we go.

Mr. Brown stated he was under the impression the County was bringing in sufficient manpower to continue.

Mr. Jackson stated, if you were to ask staff, "Are you doing that?" there response would be, "We are going to bring in sufficient numbers to do the projects we are doing." He is arguing that you need to bring on sufficient numbers to continue to do project at the rate you are doing now, not the number you can manage. We are not going to be in a position to have 19 inspectors. The PDT pays significantly more for engineers and inspectors, based upon what the SCDOT pays. Even if we wanted to hire the inspectors and engineers, who work for the PDT now, we could not offer them the salary they are currently making.

The committee agreed to bring back the proposed resolution supporting the PDT's Cash Flow Plan to the July.

Mr. Niermeier stated, as we hire new Project Engineers, the projects will be divided up, and they will be working with the existing Project Managers.
